

SALEH KEKIA
EPLF SECRETARIAT
ASMARA, ERITREA

12/7/91

INFORMATION PASSED TO INMARSAT

IN FILLING OUT THE COMMISSIONING APPLICATION IT WAS NECESSARY TO TELL THE PLANNED LOCATION OF THE TERMINALS. SO ALL I COULD DO WAS GUESS AND GIVE NAMES OF PLACES. I BELIEVE THE INFORMATION IS REQUIRED TO MAKE INITIAL COMMISSIONING TO THE SATELLITES BUT THE TERMINALS CAN BE PLACED OR MOVED ANYWHERE IN ERITREA.

AT PRESENT APPLICATION FOR COMMISSIONING IS SUBMITTED BUT CONCESSION NOT YET OBTAINED. SO THE ID NUMBER OR TELEX NUMBER WILL BE SENT TO YOU LATER. PLEASE NOTE THAT THE TECHNICAL MANUALS, OPERATORS MANUAL AND LOGGING PROCEDURE IS ENCLOSED IN THE CARTONS. (READ PURCHASE ORDER)

YOU WILL FIND HEREUNDER LIST OF UNIT SERIAL NUMBER, DESIGNATED LOCATION AND LON/LAN POSITION OF ALL THE 3 TERMINALS AS FORWARDED IN THE APPLICATION.

TERMINAL	LOCATION	LON/LAT	UNIT SERIAL NO.
NO. 1	ASMARA	15.20N 38.53E	327
NO. 2	ADI KEYH	14.49N 39.23E	330
NO. 3	MASSAWA	15.38N 39.28E	340

NOTE THAT IN THE MODIFIED VERSION OF THE SATURN C THERE IS NO NEED OF ANSWERBACK. THE ID NO. OR TELEX NO. OF A TERMINAL CONSISTS OF 9 NUMBERS (INTEGER). AS FOR THE UNIT SERIAL NUMBER YOU WILL FIND IT ON THE BACK OF THE ELECTRONIC UNIT.
