Dear Trygve:

Thank you very much for sending me your report of the Eritrean visit. I found it to be very comprehensive, informative and truly a reflection of an honest observation. Dr. Frank Bakke was with me the last week-end (9-11) when a successful presentation of slide pictures was made to about 30 people.

To reinforce your knowledge of Eritrea, I am attaching some clippings of my articles on nature and the old traditions of our people. If you happen to come to Stavanger please give me a call at 562498 at home or 503126 at work so that we can get to know each other better.

Best regards,

Emnetu Tesfay
