Subject: STOP SENDING INFORMATION TO E. TESFAY

I refer to our telephone conversation of June 11, 1990 where you showed reluctance to fax me information because you got instruction from Tseggai T.Sion, the EPLF representative in Scandinavia, that you should cease sending information to me.

To make things straight and to avoid hindering our activities could you either ask Tseggai to confirm his instructions in writing or you send me a written statement of your own which confirms the instruction you got to cease communication with me.

Best regards,

Emnetu Tesfay
