Dear Sirs:

By this letter I would like to order the following books from your store.

1. Analysis of explosives	£ 9.35
2. Detonies of high explosives	19.80
3. Methane : Planning a digester (see attached)	4.95
4. A Chinese biogas manual (")	<u>3.95</u>

total £ 38.05

I read in an advertisement that your business deals with used books too. If any of the above listed books is available in used form that will be my preference. In order to avoid time wasting on correspondance and to be able to determine the correct amount of money payable, a friend of mine living in Edinburg will contact your office to make the payment. All you have to do is pack and mail the books to my adress in Norway.

A catalog or list of books, second hand or new, on Bio-gas and Explosives would be very much appreciated.

Thanks in advance.
