Dear Sir:

I have read in South magazine advertisement of your company products. Your photovoltaics products seem to be particularly suitable for use in the tropical countries. I have some connection with a relief organization working in Eritrea and the Sudan which can be interested in the equipments your company has designed and produced.

The purpose of this letter is, therefore, to request brochures containing technical and dimensional data of the products your company has on photovoltaic-powered water pumps, light and power for refrigeration systems. It would be appreciable if you could tag the cost of the products on the brochure or on separate list.

I look forward for an early response.

Best regards,

Emnetu Tesfay
