Dear Sir:

While roaming around our local library in Stavanger, Norway, I came across two titles ( cover pages attached ) published by your department. I am interested in the drought and lack of water supply in the African world and the options that exist to solve the problem. For this reason I would like to buy these books.

I would appreciate very much if your office could send me a copy of these books to my address in Stavanger and bill me. I look forward for a quick response. Thank you in advance.

Best Regards,

Emnetu Tesfay
